When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested. The mouth and throat ulcerate, copper-colored spots appear, a red rash breaks out, the hair begins to come out, and usually sores and ulcers show themselves on different parts of the body. At the first sign of the disease S. S. S. should be taken, for the trouble is too powerful and dangerous to trifle with. If allowed to run on the tendency is to work down and attack the bones and nerves, and sometimes it makes a complete physical wreck of the sufferer. The disease can make no such headway if 3. S. S. is commenced and used according to directions; its progress can be stopped, the poison removed, and health preserved. S. S. S. goes into the blood and removes the insidious virus, cleanses the circulation and makes a complete and permanent cure by driving cut the cause. S. S. S. quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and blemishes, and when S. S. S. has thoroughly purified the circulation no trace of the disease is left. S. S. S., a purely vegetable remedy, cures Contagious Blood Poison because it is the greatest of all blood purifiers, tested and proven for more than forth ways. fiers, tested and proven for more than forty years. Ice Plant to Supply Fruit Trains Is Practically Completed.

Belen, N. M., March 29.-In keeping with the plan of the capitalists who recently purchased a tract of 25,000 acres of land eight miles west of Belen, on the banks of the Rio Puerco river, active operations are in progress this week. A force of experienced well trillers is on the ground and a well is

drillers is on the ground and a well is being sunk to a considerable depth in an effort to test the water supply of that section.

It is reported that water has been struck on this land at a reasonable depth, and that the well will be pushed still deeper in the hope that a greater supply of water can be found. The water is said to be of a very good quality, and in unlimited supply, so that the prospects for development of this section are becoming better almost daily.

section are becoming better almost daily.

As a result of the recent announcement that the area which was included in the large purchase was to be put in nrable condition, there is also considerable activity on the west bank of the Rio Puerco, the land along which is government territory. A number of citizens of Belen are laying their plans to take up homosteads there in the very near future. Not only is the interest in the government land centered in Belen and this immediate vicinity, but others who reside in other portions of the state are coming to Belen and investigating for themselves the region which is said to be so fertille and which seems to hold out such excellent prospects for the homesteader. If the experiment to get water meets with the success which new seems almost inevitable, the work of developing the immense purchase will go steadily forward, and every effort will be made by the owners of the land to put it in shape so that it can be di-Independents in the Field mass meeting of representative citizens, held at the county court house in Tucumcarl, an independent city ticket was placed in the field for the election April 2. W. B. Hector, a Tucumcarl business man, was named for mayor by acclamation, as was also S. C. Campbell, for city clerk. Herman Gerbardt was nominated for city treasurer. Four aldermen were named as follows: First ward, C. C. Chapman: second ward, J. B. Taylor; third ward. James Conwell, fourth ward, W. H. Boberis.

The ticket is the result of much thought among the husiness men and boosters of Tucumcarl and was chosen with the idea of having the most efficient city officors obtainable, regardiers of political party. So far no talk of opposition has arisen.

Fire partially destroyed the residence of A. A. Harvey on East High atrest Prompt arrival of the fire department prevented the entire destruction of the building. Cause of the fire is unknown. The bouse was the property of J. R. McAlpine, and is one of the first residences to have been built in that part of town.

The tile flooring for the new State bank of Tucumcarl has been completed, this being the last of the improvements to be done on this place of business, the furniture having been installed during the last week.

Work has begun on the adobe building of J. R. Warson on South Second street, work being pursued simultaneously on four buildings in this neighborhood.

J. E. Pollard, who was severely in jured Saturday afternoon in a runaway on the corner of Second and Center streets, is reported as doing well and little fear is entertained as to his recovery. Tucumcari, N. M., March 39 .- At a mass meeting of representative citizens, be made by the owners of the land to put it in shape so that it can be di-vided into smaller farms at the earliest

possible date.

The Plant Completed.

After several months of hard work, the local plant of the Kansas lee company is practically completed, and the first lee will probably be made the latter part of the present week. Mr. Gallup, who is to have charge of the plant, stated that everything will be in readiness within the next few days. The approach of warm weather brings with it the necessity of stopping the east bound fruit trains for the purpose of fcing, and it is thought that tee will be necessary within the next ten days.

pose of icing, and it is thought that ice will be necessary within the next ten days.

The local plant, which is one of the largest in the entire southwest, has ample capacity to care for all the traific which masses through Belen and eastward over the cutoff. A platform of sufficient length to ice 190 cars at one time has been erected, and, with a sufficient force of men to handle the ice as it comes from the store house, the icing of a single train will be the work of only a few moments.

The plant throughout is equipped in the most thoroughly uptodate manner and when running to its full capacity will turn out 100 tens of ice daily. When the start is made, the entire plant will not be ready for operation, but the work necessary to complete every detail will not require a very great length of time.

Woman Finally Recovers From Nervous Breakdown

Impoverished nerves destroy many people before their time. Often be fore a sufferer realizes what the trouble is, he is on the verge of a complete nervous breakdown. It is of the utmost importance to keep your nervous system in good condition, as the nerves are the source of all bodily power. Mrs. Anna Kounz, 211 Mechanie St., Pueblo, Colo, says:

"For many years I suffered from nervous prostration; I was unable to do any house work and doctors failed to help me. Remedies I tried from druggists did not do me a particle of good. A neighbor told my husband about

Dr. Miles' Nervine

and he procured a bottle. After the first few doses I showed a marked improvement and after taking two bottles I was entirely cured. I have been perfectly well for years and cannot praise Dr. Miles Nervine too highly.

If you are troubled with loss of appetite, poor digestion, weakness, inability to sleep; if you are in a general run down condition and unable to bear your part of the daily grind of life, you need something to strengthen your nerves. You may not realize what is the matter with you, but that is no reason why you should delay treatment.

Dr. Miles' Nervine

has proven its value in nervous disorders for thirty years, and merits a trial, no matter how many other remedies have tailed to help you.
Sold by all druggists. If first bottle

alarm was turned in from East Clifton and in a very short time the department was on the ground and doing effective work. The blaze originated in the Cilfton Tailor shap, owned by s. C. Swift, and caught from a defective flue. The fire was soon extinguished with but slight damage to the building. Mr. Swift had a large number of suits on hand for cleaning and repairing, but none were damaged. This is the first alarm turned in for several months and Cilfton has been very fortunate in respect to fires for the past year.
